John,

Here's the very special AM that we need to start routing. Thank you, lw

**Subject:** Gold King Mine Release Action Memo

Attached please find a concurrence copy and signature copy of the Action Memo for Gold King Mine release. I am sending this out to the removal managers in Regions 6 and 9 and to OEM. Please begin your normal routing procedure for action memos, except have the final signature as your regional administrator. This document has been reviewed by all three regions and headquarters and we have tried to incorporate all comments as best we can. Please try to limit your comments or corrections to the document as it goes through concurrence so we can get this finalized. Let me know if you have necessary changes. Please return your final signed copy with RA signature on the cover letter by October 23<sup>rd</sup> to Region 8 and we will send the final to HQ.

OEM, please use this concurrent routing process with the regions to get HQ concurrence on the AM and ready for Mathy's signature. (I believe I owe you a one page summary to go with the documents)

Thanks
